MEMORANDUM FOR THE RECORD

SUBJECT: Minutes of the Second Meeting of the Collocation Committee

1. The objective was for the various sub-committees to present the broadbrush thoughts that they had on collocation and to raise significant problem areas.
2. Materiel presented an organizational chart which consisted of a Commander, D/O, D/M and Chief of Support. This was discussed at length with the major objections being the D/M, who had responsibility for both aircraft and the Squadron Commanders being designated as operations officers under the D/O.
3. Materiel was advised to make up a new chart with an overall Base Commander responsible for support and two Squadrons with their own integral maintenance. [redacted] was advised 25X1A to take both T/O's and attempt to determine which Support functions would be duplicated and hence could be decreased.
4. Security has provided a proposed annex and a copy is available in the BPD file.
5. Materiel was requested to prepare a Materiel annex following the guidance in paragraph 3.
6. Operations will present a chart on Command and Control at the next meeting.
7. Commo has carefully reviewed their problems and feel

they can cut a significant portion of the IDEALIST Commo people out but if the IDEALIST were to be [redacted] then there would be an increase of 25% in personnel.

25X1A

25X1C

[redacted]

9. A second fairly significant point was the fact that the OXCART operates on basically a four day week, while the IDEALIST would in all probability need a full seven day work week to solve their problems.
